Receiver issues statement on court order regarding transition of prison medical care to state control

“We have already been working with CDCR on transition planning and will continue to do so. It is important to note that the order is clear--the end of the receivership will be based on need and not within a specific timeline. We have made great strides in meeting federal court mandates to improve the quality of and access to medical care for inmates, while also lowering the cost to taxpayers. Our focus now is on finishing the job and ensuring the state is able to sustain the many improvements in the system.”

J. Clark Kelso
Receiver
